

## Summary of Open Feedback Questions

### What Do You Feel Most Optimistic About in the City in the Next 5 Years?

- People do care about our future. City government has matured (although flack in social media distorts the reality).
- That the old Campbell County Historical Society wants to relocate in the Beavers House. And this organization may bring their passion to help secure grants for historic preservation.
- Many Fold Farm and other young farmers establishing their business and rural org here.
- Our parks have some amazing potential!

### What Will Be the Biggest Challenge for the City in the Next 5 Years?

- Economic Development
- Lack of commercial tax base to support the city.
- Funding needed for basic services
- Road maintenance (more)
- Additional charter school
- Additional hamlets
- How do you add a village without drastically changing who we are?
- Open government/ zoning following the comp plan
- We need more tax revenue to fund infrastructure maintenance
- City needs to demand improved customer service from Greystone Power if their franchise is to continue.
- No internet – I wouldn't move here today because there is no internet where I live
- Second city needs to work with internet providers to secure this basic need
- Trailers and goats at school were not part of our vision which we were sold (not to mention rocks and mud in road)
- Would advocate tax base development on South Fulton Parkway instead of the areas we live. Can this be put on a ballot?
